SHARING KNOWLEDGE, CHANGING LIVES

Save PNG Inc. is a Papua New Guinea based non-government organization (NGO) committed to empowering communities through education, advocacy, and sustainable development initiatives.

Our work focuses on health, wealth, and equality, leveraging development knowledge, resources and skills to create lasting impact.

As a development partner, Save PNG delivers targeted programmes that are dedicated to improving the lives of Papua New Guineans.

By working in close partnership with a range of stakeholders at the local, national and international level, we help advance PNG's development priorities.

We understand the challenges of working in remote areas. We know the communities that we work with, and listen to their needs and expectations. We place local ownership at the centre of our programmes to ensure that we deliver sustainable benefits for the communities we work with.

We work to enhance indigenous knowledge as sustainable solutions to climate change, bio-cultural diversity, nutrition, water and economic security.
